BASMATI RICE

GLOBAL *presence*

OUR STRENGTHS

UNMATCHED INFRASTRUCTURE

Two most modern, sophisticated & state-of-the-art plants. Total paddy processing capacity of both plants is about 1000 MT per day. Sunstar has technical backup of international equipment manufactures like Cimbria, Satake and Buhler for providing ultra modern technology.

34 YEARS LEGACY

Our practices evoke the goodness of timeless traditions that have transcended over generations. A legacy is the result of great visions, best use of resources, diligence and finally, breathing life to the whole process.

WORLD WIDE PRESENCE

The story of Sunstar began way back in 1995, when Mr. Rakesh Aggarwal realized that the rice processing in the Himalayan foothills needed standardization, thrust and momentum to take it to the global pedestal.

MULTI-DIMENSIONAL VISION

We believe in making the impossible possible. So we dream big! Our vision is to be the world leader in the premium Basmati rice sector. Being the regions' market leader, we aim to consistently exceed the expectations of our investors and customers.
